## **Marchesini Group at “Emballage 2008”**

Innovative machines with the best design and construction, built to the highest technological standards, made to guarantee not just top quality and productivity, but also successful, cutting edge packaging solutions for cosmetics and pharmaceuticals. With these winning solutions **Marchesini Group**, world leader in the automatic packaging machine market for pharmaceutical and cosmetics products, will be present at the **Emballage** exhibition (Hall 5A – Allee J – Stand 104), in **Paris from 17 to 21 November 2008**.

In the cosmetics market Marchesini Group is famous all over the world for its complete lines – from filling to palletising – for packaging various types of cosmetic products such as **tubes, jars, sachets, bottles, mascaras**.

The Group also makes state-of-the-art machines for packaging products such as nail varnish, lip gloss, compact powder, perfumes and soaps (bare or wrapped), not forgetting innovative solutions for complex packaging typical of the cosmetics market, for example complete hair colouring kits. All of these successful innovative solutions are dedicated to the cosmetics industry and designed to meet the demands of each customer, for example the brand new syringe filling machine for the liquid solutions of anti-wrinkle products. Amongst the latest complete production dedicated to this market to be highlighted are the **filling and packaging line for jars** which includes the **MAV50 vertical cartoner** and **vertical case packer MCV850**, technologically advanced solutions in the cosmetics packaging world market, together with the **filling – capping machine for jars MV545** and the Neri **SL200DL2T labeller**.

Systems designed and made by Marchesini Group for customers of the calibre of the L'Oréal Group, Givenchy, Dior Parfum, Yves Saint Laurent Beauté, Procter&Gamble, Pierre Fabre, Guerlain Paris, Estée Lauder, Weleda, Antica Erboristeria, Puig, Chanel Parfums Beaute.
