

In 2019, we handed over a packaging line for **botulinum vials**, mainly for **pharmaceutical use**, to a **French customer**. The line is up and running, along with another Marchesini vials packaging line, at a factory in **Wales** recently opened by the customer. This complex project came to life in **2016** and was completed following its consignment in **2019**

## RL-F300

High speed **labelling machine** with a star wheel transport system

### Size range

## ROBOCOMBI

1<sup>st</sup>

2<sup>nd</sup>

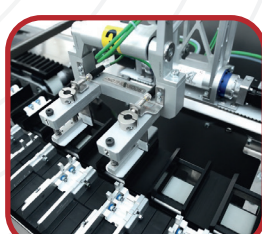

3<sup>rd</sup>

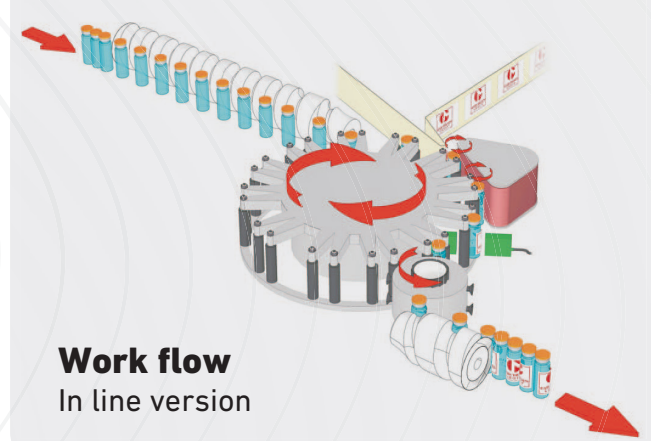

The **first Robocombi** opens up and handles the cardboard trays, which have been tailor-designed by us for this specific customer

The **second Robocombi** handles the labelled bottles and puts them into the cardboard trays

Two special **labelling heads** apply a glueless label with the codes used to fraction the botulinum injections
